June 28, 2021

Citizens, Mayor Stolzmann, Members of the City Council:

We submit to you the Annual Comprehensive Financial Report of the City of Louisville for the fiscal year ended December 31, 2020. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data reflects accurately in all material respects and is reported in a manner that presents fairly the financial position and results of operations of the various funds of the City. We have also included all disclosures necessary to enable the reader to gain an understanding of the City's financial activities. We also suggest that readers of this document review the Management's Discussion and Analysis section for a more detailed discussion on the financial information.

This report includes all funds of the City. In addition, the Urban Revitalization District meets established criteria for inclusion in the reporting entity and, therefore, is also included within this report.

### **ECONOMIC CONDITION AND OUTLOOK**

The City of Louisville has often been recognized for its livability. Money magazine named Louisville No. 1 in its 2009 and 2011 "Best Place to Live" issues and No. 2 and 4 respectively in 2013 and 2015. Many things contribute to this exemplary quality of life and positive economic condition. Among other things, Louisville has beautiful open spaces and parks around and throughout the City, dozens of great eateries, a thriving arts and music scene, great neighborhoods, among the best schools in the State and numerous job opportunities with employers such as Sierra Space, Avista Hospital, Design Mechanical Inc., Global Healthcare Exchange, Fresca Foods, JumpCloud Inc., and other employers expanding and moving to the community. As the first Money article noted, "Add in dry, clear weather, little crime, good health care, low taxes, and Louisville is pretty tough to beat."

Louisville is located in the Denver metropolitan region, approximately 6 miles east of the City of Boulder and 25 miles northwest of Denver. Louisville has an incorporated area of approximately 7.9 square miles and a population of approximately 20,000. The City's residential growth peaked in 1992, then remained fairly steady through the 2010 census, and then picked up in the past several years as the last large developable parcels build out and the City nears the target population of about 23,000 that is reflected in the City's Comprehensive Plan. There is significant activity on the commercial land available in

Louisville as the City is strongly influenced by the U.S. Highway 36 corridor from Denver to Boulder, proximity to nearby national laboratories and universities, easy access to Denver International Airport, and numerous world-class recreational and cultural opportunities.

## **COVID-19 PANDEMIC**

In March 2020, the City was faced with the COVID-19 pandemic, which significantly impacted communities across the country. Faced with a widespread public health crisis, the City declared a local disaster emergency and shifted its operations towards response and recovery.

Throughout the past year, the City was forced to close its facilities to comply with a stay at home order to limit the spread of the virus. While necessary, this act affected not only the City's facilities but a number of local businesses, as well.

The City has complied with all stages on the State's COVID-19 Dial ranging from Level Red: Severe Risk to Level Blue: Caution. The various levels consisted of local capacity restrictions and mitigation efforts that put a financial strain on many businesses and organizations.

The closure of City facilities and local businesses reduced many of the City's revenue sources, although not as significantly as initially anticipated. The City made budget reductions for 2020 mid-year as a result and have been able to revisit some of those reductions in 2021 as revenues stabilize.

On May 20, 2021, Boulder County entered Level Clear, which is a 90-day observation period in which local capacity restrictions and mitigation are no longer required but may still be encouraged. The City enters this phase hopeful that we are finally approaching recovery from the pandemic.

As the City shifts towards recovery, its primary focus will be on community recovery, economic recovery and organizational recovery. The following principles will guide the City's recovery work:

- The health, safety and well-being of the community is a top priority and must be guided by an adherence to public health guidance.
- Ensure a safe, equitable and sustainable recovery for the community.
- Provide support for vulnerable populations with challenges such as housing, food security, childcare, utility assistance, eviction/foreclosure and other critical needs.
- Improve the resiliency of the community and prepare us for future pandemics and other emergency scenarios.
- We are committed to restoring our local economy in a manner that is safe, equitable, sustainable and prosperous for all.
- Partner with local business organizations and regional partners to understand the needs of the business community.
- Recovery provides an opportunity to re-evaluate our current economic landscape and make changes to positively affect the community.

- Maintain adequate funding to manage and maintain City assets, including preventative maintenance, and plan for future needs.
- Continue to provide core services and programs as excellent public service will form the basis for an effective recovery.
- Continue to identify process improvements and efficiencies and maximize partnerships to leverage resources while meeting community needs.

## **MAJOR INITIATIVES IN 2020**

### **Strategic Goals and Objectives**

The City of Louisville Home Rule Charter states that the City’s mission is to provide basic municipal services in an efficient and cost-effective manner and maintain the qualities that make Louisville unique by protecting and preserving the City’s scenic, historic, and aesthetic features through open and ethical government in which every member of the community has an opportunity to participate. The City’s Strategic Plan, completed in 2018, provides the following Vision, Mission and Values for the organization:

#### *Vision*

The City of Louisville – dedicated to providing a vibrant, healthy community with the best small town atmosphere.

#### *Mission*

Our commitment is to protect, preserve, and enhance the quality of life in our community.

#### *Values*

Innovation, Collaboration, Accountability, Respect, Excellence

Consistent with the City’s goals and objectives, City leaders and staff accomplished the following during 2020:

- Maintained ongoing communication around public health guidance and restrictions related to COVID-19, managed the reopening of facilities and established new business assistance programs.
- Reviewed and updated fiscal policies and adjusted finances, fees and budgets in response to COVID-19 related economic impacts.
- Continued implementation of the City’s enterprise resource planning (ERP) system, including the implementation of electronic timesheets.
- Prioritized projects and programs for the 2021-2026 Capital Improvement Program and 2021/2022 Budget in coordination with the Transportation Master Plan.
- Continued implementation of Street Reconstruction and the Pavement Booster Program to maintain the City’s pavement infrastructure.
- Completed construction of State Highway 42 Underpass and State Highway 42/Short Intersection.
- Updated the City’s Sustainability Action Plan to reflect priorities around climate, energy, transportation, waste, water, ecological health and local food/agriculture.
- Adopted a single use bag tax aimed at reducing single-use bag consumption within the community.

- Explored airport noise mitigation opportunities in conjunction with the Town of Superior and established RMMA Community Noise Roundtable to further consider regional solutions.
- Replaced playgrounds to improve safety and meet ADA requirements.
- Increased natural resource management activities on City Open Space to improve native vegetation.
- Increased efforts to improve the City's medians and landscaping infrastructure, including forestry resources.
- Started developing Economic Vitality Strategic Plan, which includes tools and programs focused on increasing retail sales and sources of revenue-generative activities.
- Continued organizational development and training program to support culture of continuous learning, succession planning and leadership development.
- Continued workplace culture initiative that reflects the City's Strategic Plan and promotes the organizational culture of "I CARE".
- Conducted community conversations on racial equity and formed plan to address diversity, equity and inclusion within the organization and community.
- Continued implementation of new technology and engagement tools to ensure accessible participation for all members of the community.
- Completed 2020 Citizen Survey to evaluate resident satisfaction with the quality of life in the city, community amenities and satisfaction with local government.
- Continued implementation of technology applications and systems to enhance City services, including Police Records Management, Laserfiche, Energov, RecTrak and GIS.
- Utilized additional resources to support data-driven decision-making by staff to fully leverage technology systems by accessing available data.
- Continued strengthening relationships with regional partners and considered shared service opportunities to leverage resources.

### **PROJECTS PLANNED FOR 2021**

The City reviews and publishes its Six-Year Capital Improvements Plan on an annual basis. Currently, the projects planned for 2021, including the carry-forward budget amendment, amount to approximately \$27 million. The following table lists some of the most significant projects within the original Six-Year Capital Improvements Plan.

Project Description	Source of Funds	2021 Projection
Pavement Management Program	Capital Projects Fund	3,630,000
South Boulder Road Pedestrian Improvements	Capital Projects Fund	1,359,800
Windy Gap Firming Project	Water Utility Fund	926,000
Building Energy Efficiency	Capital Projects Fund	600,000
Marshall Lake Sediment Control	Water Utility Fund	600,000
Water Line Replacement Program	Water Utility Fund	460,000
Soft Surface Trail Management Plan	Open Space & Parks Fund	400,000
Sewer Line Replacement Program	Wastewater Utility Fund	368,000
Cottonwood Park Development	Open Space & Parks Fund	330,000
Water Rights Acquisition	Water Utility Fund	250,000

### FINANCIAL INFORMATION

City management is responsible for establishing and maintaining internal controls that are designed to ensure the assets of the City are protected from loss, theft or misuse. Also, management ensures that financial statements are prepared in conformity with generally accepted accounting principles through the compilation of adequate accounting data. Internal controls are designed to provide reasonable, but not absolute, assurance these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

**Budgetary Controls.** The City maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level. The City also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts do not lapse at year-end and are generally re-appropriated the following year.

As demonstrated by the statements and schedules included in the financial section of the report, the City continues to meet its responsibility for sound financial management.

### OTHER INFORMATION

**Independent Audit.** State statutes require an annual audit by independent certified public accountants. The accounting firm of Eide Bailly LLP was retained by City Council for this purpose. Eide Bailly has issued an unmodified opinion on the City's financial statements for the year ended December 31, 2020. The auditors' report on the Basic Financial Statements is included in the financial section of this report.

**Awards.** The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Louisville for its Annual Comprehensive Financial Report for the fiscal year ended December 31, 2019. This was the thirtieth consecutive year the City of Louisville has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the City of Louisville also received the GFOA's Award for Distinguished Budget Presentation for the 2019-2020 biennium. This was the thirtieth/thirty-first consecutive year the City of Louisville has received this award. In order to qualify for the Award, the City's budget document was judged to be proficient as a policy document, financial plan, operations guide, and communications device.

**Acknowledgments.** The preparation of this report would not have been possible without the efficient and dedicated efforts of the entire City staff. We especially thank all members of the City's Finance Department for their exceptional efforts and the staff of Eide Bailly LLP for the professional manner in which they have accomplished our audit. We thank the Mayor, City Council, and Finance Committee for their effective fiscal and policy direction and their support in planning and conducting the financial operations of the City in a responsible and progressive manner.

Respectfully Submitted,

## Independent Auditor's Report

To the City Council  
City of Louisville, Colorado

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Louisville, Colorado (the City) as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Louisville, Colorado, as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Other Matters

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the

United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining nonmajor fund financial statements, other budgetary schedules, statistical section, and local highway finance report are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining nonmajor fund financial statements, other budgetary schedules, and the local highway finance report are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements, other budgetary schedules, and the local highway finance report are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

*Report on Summarized Comparative Information*

We have previously audited the City's 2019 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information in our report dated June 11, 2020. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2019 is consistent, in all material respects, with the audited financial statements from which it has been derived.

**Other Reporting Required by Government Auditing Standards**

In accordance with Government Auditing Standards, we have also issued a report dated June 11, 2021 on our consideration of the City of Louisville's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Louisville's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering City of Louisville's internal control over financial reporting and compliance.

Denver, Colorado  
June 11, 2021

## Management's Discussion and Analysis

This section of City of Louisville, Colorado's annual financial report presents the discussion and analysis of the City's financial performance during the fiscal year that ended on December 31, 2020. City staff encourages readers to consider the information presented here in conjunction with the transmittal letter at the front of this report and the financial statements, which follow this section.

### Financial Highlights

- The City's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at the close of the year by \$292.0 million (net position). Of this amount, \$38.1 million (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- During the year, the City's revenue from taxes and other revenue for governmental programs exceeded the expenses by \$6.8 million, or 2.4%.
- In the City's business-type activities, net position increased by \$4.4 million, or 3.3%.
- The City's total long-term debt, including compensated absences payable and the Urban Revitalization District debt, decreased by \$2.4 million to \$64.5 million.
- At the close of the year, the City's governmental funds reported combined ending fund balances of \$29.1 million, a decrease of approximately \$550,000, or 1.9%, from the previous year. The largest increase in fund balance occurred in the Urban Revitalization District Fund, due to incremental property tax revenue significantly exceeding District expenditures. The increase amounted to \$1.1 million, a 100% increase from the previous year. The largest decrease occurred in the Capital Projects Fund, which resulted from a planned spend-down of reserves on capital outlay. The decrease amounted to \$3 million, reducing reserves from \$9.7 million to \$6.7 million.
- The General Fund balance increased by \$493,000 from \$10.8 million to \$11.3 million. This 4.6% increase is significant, since it occurred during the COVID-19 pandemic.
- Of the total governmental funds ending fund balance amount, \$9.7 million (33.3%) is deemed unassigned, \$132,114 (0.5%) is assigned, \$543,423 (1.9%) is committed, \$17.9 million (61.5%) is restricted, and \$859,518 (3.0%) is non-spendable.

### Overview of the Financial Statements

This annual report consists of four parts – *management's discussion and analysis* (this section), *basic financial statements*, *required supplementary information*, and a section that presents *combining statements* for non-major governmental funds and internal service funds. The report also presents budgetary comparison statements.

The basic financial statements include two kinds of statements that present different views of the City:

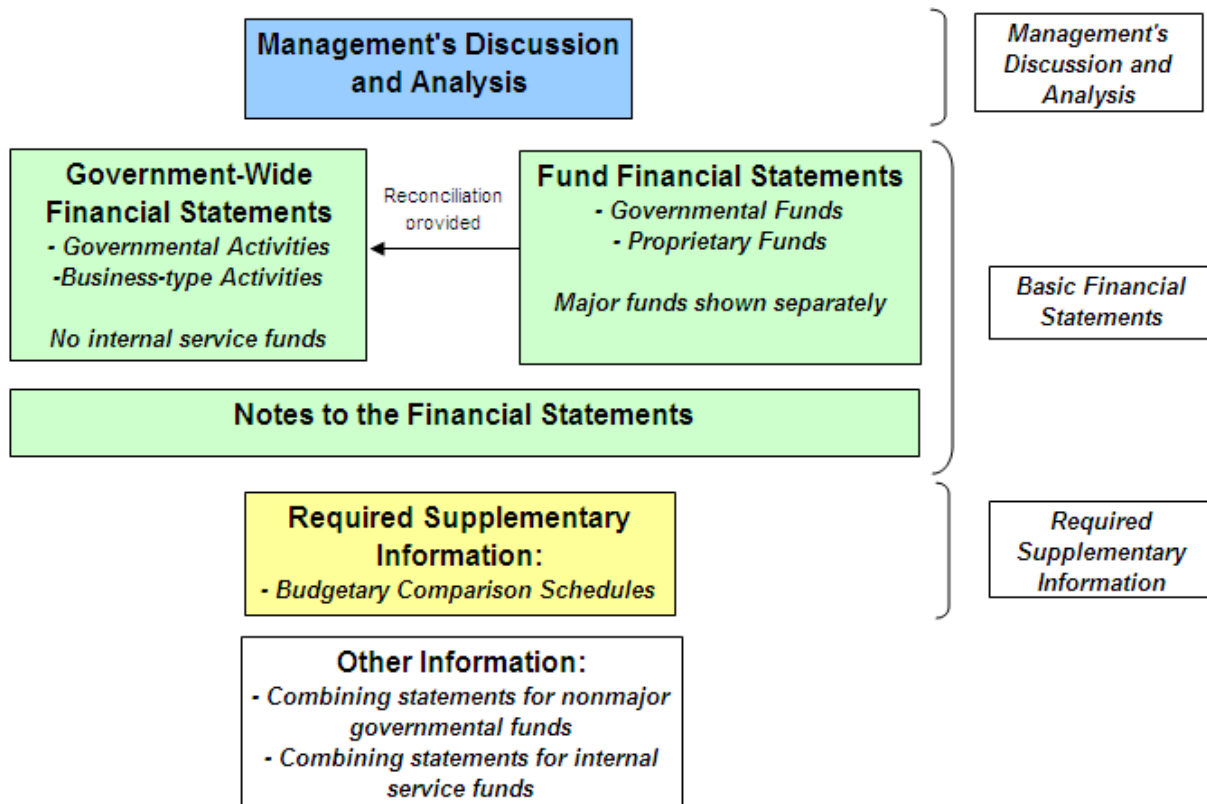

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the City's *overall* financial status.

- The remaining statements are *fund financial statements* that focus on *individual parts* of the City government, reporting the City's operations in *more detail* than the government-wide statements.
  - The governmental fund statements tell how general government services were financed in the short term as well as what remains for future spending.
  - Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses, such as utilities.

The basic financial statements also include *Notes to the Financial Statements* that explain some of the information in the financial statements and provide more detailed data. The basic financial statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure 1 shows how the individual sections of this annual report are arranged and related to one another.

Figure 2 summarizes the major features of the City's financial statements, including the portion of the City government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

**Figure 1**

**Figure 2**

|-----Fund Statements-----|

	<b>Government-wide Statements</b>	<b>Governmental Funds</b>	<b>Proprietary Funds</b>
<b>Scope</b>	Entire City government	The activities of the City that are not proprietary, such as police, public works, and parks and recreation	Activities the City operates similar to private businesses: The utilities and the golf course
<b>Required financial statements</b>	<ul style="list-style-type: none"> <li>▪ Statement of net position</li> <li>▪ Statement of activities</li> </ul>	<ul style="list-style-type: none"> <li>▪ Balance sheet</li> <li>▪ Statement of revenues, expenditures, and changes in fund balances</li> </ul>	<ul style="list-style-type: none"> <li>▪ Statement of net position</li> <li>▪ Statement of revenues, expenses, and changes in net position</li> <li>▪ Statement of cash flows</li> </ul>
<b>Accounting basis and measurement focus</b>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
<b>Type of asset/liability information</b>	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term
<b>Type of inflow/outflow information</b>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid

**Government-wide Statements**

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the City’s assets and deferred outflows of resources and all liabilities and deferred inflows of resources, with the difference reported as *net position*. Over time, increases or decreases in the City’s net position are an indicator of whether its financial health is improving or deteriorating, respectively. To assess the overall health of the City, additional nonfinancial factors need to be considered, such as changes in the City’s tax base and the condition of the City’s infrastructure.

The government-wide financial statements of the City are divided into two categories:

*Governmental activities* – Most of the City’s basic services are included here, such as the public safety, public works, parks and recreation, library services, and general administrative services. Sales and use taxes, property taxes, other taxes, charges for services, and intergovernmental revenue finance most of these activities.

*Business-type activities* – The City charges user fees to customers to recover most of the costs of providing certain services. The City’s water, wastewater, storm water, and solid waste utilities, as well as golf facilities, are included here.

## **Fund Financial Statements**

The fund financial statements provide more detailed information about the City’s most significant *funds* – not the City as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Some funds are required by State law and by bond covenants. Other funds are established by the City Council to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

All of the funds currently used by the City can be divided into two categories: governmental funds and proprietary funds:

- *Governmental funds* – Most of the City’s basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City’s programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explains the relationship (or differences) between them.
- *Proprietary funds* – Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information.
  - The City uses *enterprise funds* (one type of proprietary fund) to report its business-type activities and provide more detailed and additional information, such as cash flows.
  - The City uses *internal service funds* (the other type of proprietary fund) to report activities that provide services and asset replacement for the City’s other programs and activities – such as the City’s Fleet Management Fund. These funds are reported with governmental activities in the government-wide financial statements.

## Government-Wide Financial Analysis

### Net Position

As of December 31, 2020, the City's assets and deferred outflow of resources exceeded its liabilities and deferred inflow of resources by \$292.0 million (Figure 3). This amounts to an increase in combined net position of \$6.8 million, or 2.4%, from 2019 to 2020. The largest portion of the City's net position (80.7%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Sales and use tax are the City's largest revenue source and account for 35% of all revenues (Figure 4). Sales and use tax are the main funding source for the City's governmental activities, accounting for 53% of total General Fund revenue. Charges for services are the main funding source for the City's business-type activities and account for 34% of all City revenue. The City's largest expenses come from business activities that include water, wastewater, storm water, solid waste, and golf course services (Figure 5).

**Figure 4**

**Figure 5**

## Changes in Net Position

During 2020, governmental activities increased the City's net position by \$2.4 million and business-type activities increased the City's net position by \$4.4 million.

The \$2.4 million increase in governmental activities net position is partly due to pandemic –related expense reductions in many of the governmental funds. It is also partly due to the surprising resiliency of many of the City's revenue sources.

The \$4.4 million increase in business-type activities net position was primarily due to a \$3.4 million increase in the net position of the Water Utility Fund, a component of the Consolidated Utility Fund. This increase was mainly due to increases in user fees, reductions in expenses due to delays in capital projects, and the intentional buildup of reserves.

## Financial Analysis of Funds

As the City completed the year, its governmental funds reported a *combined* fund balance of \$29.1 million, a small decline of \$550,000 (1.9%) from the previous year. Some items to be noted within the various funds are:

- The *General Fund* balance increased by \$493,079 to \$11.3 million during 2020. The ending fund balance equates to 65% of total annual expenditures, excluding transfers. This is well above the 20% target stipulated in the City's Financial Policies.
- The *Open Space & Parks Fund* balance increased by \$366,856 to \$3.2 million during 2020. The ending fund balance equates to 123% of annual operating expenditures, well above the 15% minimum stipulated in the City's Financial Policies. The Open Space & Parks Fund receives annual recurring support transfers from the General Fund.
- The *Recreation Fund* balance increased by \$287,495 to \$1.4 million during 2020. The ending fund balance is comprised of a 15% of operating expenditures reserve and the development of a capital renewal and replacement reserve. The Recreation Fund also receives annual recurring support transfers from the General Fund. During 2020, additional transfers were made due to the pandemic-related closure of the Recreation Center and Memory Square Pool.
- The *Urban Revitalization District Fund* balance increased by \$1.1 million to \$2.2 million during 2020.
- The *Capital Projects Fund* balance declined by \$3.0 million to \$6.7 million during 2020. The planned reduction was approximately \$7.8 million and there was a significant actual-to-budget positive variance in capital expenditures. However, the majority of this unspent budget will be re-appropriated in 2021 in order to complete the unfinished projects that were originally approved for 2020.

## Capital Asset and Debt Administration

### Capital Assets

At the end of 2020, the City had invested \$433.8 million (Figure 7) in a broad range of capital assets, including land, water rights, streets, and utility infrastructure. Net of accumulated depreciation, the City's capital assets total \$298.3 million. More detailed information on capital asset activity can be found in the notes to the financial statements, *Note 6: Capital assets*.

### Long-term Debt

The following table summarizes the net change in the City's long-term debt. No new long-term debt was issued in 2020. Additional information on the City's long-term debt is provided in the Notes to the financial statements, *Note 7: Long-term debt*.

**Figure 8**

### Bond Ratings

On March 31, 2017, Standard & Poor's assigned a rating of AA+ with a stable outlook on the 2017 Recreation Center Limited Tax General Obligation Bonds. This rating is unchanged as of December 31, 2020.

### Limitations on Debt

The State of Colorado limits the amount of general obligation debt the City can issue to 3 percent of the actual value of all taxable property within the City's corporate limits. The 2020 debt limit was \$180.3 million. In contrast, the City currently has only \$25.2 million in outstanding debt applicable to the debt limit.

## **Economic Factors and Next Year's Budgets and Rates**

- Factoring out business assistance rebates and sales tax audit revenue, total 2020 sales tax revenue declined by only 2.9% from the previous year. This was significantly better than many of the projections done at the beginning of the pandemic. Staff is anticipating a strong local economic recovery during 2021, projecting sales tax to increase by 7% over 2020.
- Property tax revenue is the product of the new assessed valuation and the mil levy. Since 2016, the City's net assessed valuation has increased at an average annual rate of nearly 7.5%. These increases have been due to overall property value increases and new construction within the City. The increase in net assessed valuation for the 2020 levy year (2021 collection year) is 4.7%. Staff is projecting the average annual increase in net assessed value, and property tax revenue, of approximately 2%. This relatively conservative estimate is due to the uncertainty of the pandemic's long-term impacts to non-residential property valuation.

From 2004 through 2017, the City's mill levy remained at 6.710. Beginning in 2018, and applied to the 2017 assessed valuation, the mill levy was increased to 8.869 mills due to a new debt service mill levy on the 2017 General Obligation Recreation Center bonds. For 2019 collections, the mill levy was lowered to 7.934, as the final debt service payment on the 2004 General Obligation Library bonds occurred in 2018. The mill levy is expected to remain at 7.934 through the 2021 collection year.

- Building-generated revenue, defined as construction use tax, construction permits, impact fees, and utility tap fees, help fund the City's Capital Improvement Program and, to a much lesser extent, the operational budget. These revenue sources are highly elastic, fluctuate significantly from year to year, and are difficult to estimate in advance. For example, building-generated revenue increased from \$1.1 million in 2010 to \$13.6 million in 2016. The total amount received for this consolidated revenue category in 2020 was \$5.5 million. Due to the City approaching build-out, staff currently estimates that this revenue source will average approximately \$2.5 million per year over the next six years.

## **Contact Information**

This financial report is designed to provide the citizens, taxpayers, customers, investors, and creditors of the City of Louisville a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to City of Louisville, Finance Department, 749 Main Street, Louisville, Colorado 80027, (303) 335-4500.

**City of Louisville  
Reconciliation of the Balance Sheet  
to the Statement of Net Position  
December 31, 2020**

---

Balance sheet - total fund balances	\$ 29,077,696
<p>Amounts reported for governmental activities in the Statement of Net Position (Exhibit 1) are different because:</p>	
<p>Capital assets (net of accumulated depreciation) used in governmental activities are not financial resources and therefore are not reported in the funds. The amount is \$157,540,525 less the internal service funds of \$1,484,728.</p>	156,055,797
<p>Compensated absences are not recorded in government funds because they are not due and payable at year end.</p>	(1,334,459)
<p>Internal service funds are used by management to charge the costs of certain activities, such as fleet and computer replacement to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.</p>	2,192,045
<p>Some liabilities, including bonds payable (\$29,531,631), premium on bonds payable (\$1,550,841), and capital leases payable (\$69,613) are not included in governmental funds. The premium will be amortized over the life of the bonds.</p>	<u>(31,152,085)</u>
Net position of governmental activities	<u><u>\$ 154,838,994</u></u>

**City of Louisville  
Reconciliation of the Statement of Revenues,  
Expenditures, and Changes in Fund Balances of Governmental Funds  
to the Statement of Activities  
For the Year Ended December 31, 2020**

---

Net change in fund balances - total governmental funds	\$	(549,181)
<p>Amounts reported for governmental activities in the Statement of Net Activities (Exhibit 2) are different because:</p>		
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which net capital outlays (\$10,048,862) exceeded depreciation (\$6,225,474) in the current period.</p>		3,823,388
Net book value of disposed assets in the governmental funds.		(1,302,503)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		(169,488)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount of debt repayments.		844,375
Internal service funds are used by management to charge the costs of certain activities, such as fleet, computer replacement, and building maintenance to individual funds. The aggregate net revenue of the internal service funds is reported with governmental activities.		<u>(190,854)</u>
Change in net position of governmental activities	\$	<u><u>2,455,737</u></u>

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 1: Summary of significant accounting policies**

The City of Louisville (City) was founded in 1878 and incorporated in 1882. The registered electors voted to become a home rule city on November 6, 2001 under the provisions of Article XX of the Constitution of the State of Colorado. The City is a municipal corporation governed by an elected mayor and six-member council. The financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

**A. Reporting entity**

The accompanying financial statements present the City and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the City's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the City, the primary government. A discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

Governmental Accounting Standards Board (GASB) Statement 61, *The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34* provides additional criteria for classifying entities as component units to better assess the accountability of elected officials by ensuring that the financial reporting entity includes only organizations for which the elected officials are financially accountable or that are determined by the government to be misleading to exclude.

The City presently has one blended component unit included within the reporting entity; the Urban Revitalization District, which is presented as a special revenue fund. The City Council is essentially the governing body of the District, but appoints the Louisville Revitalization Commission (LRC) to oversee the general operations of the District. The City provides all administrative, financial, and legal support services to the District. By Cooperation Agreement between the City and the LRC, the City Council must approve the District's budget, expenditures made by the District, the issuance of debt, and the execution of contractual obligations. The City has no discretely presented component units.

**B. Government-wide and fund financial statements**

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Exceptions to this general rule are charges for interfund services that are reasonably equivalent to the services provided. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 1: Summary of significant accounting policies (continued)**

**B. Government-wide and fund financial statements (continued)**

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

**C. Measurement focus, basis of accounting, and financial statement presentation**

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City generally considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Property taxes, sales and use taxes, franchise taxes, lodging taxes, intergovernmental revenue, and interest earnings associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Most other revenue items are considered to be measurable and available only when the City receives cash.

The City reports the following major governmental funds:

- The *General Fund* is the City's primary operating fund. It is used to account for most of the day-to-day operations of the City, which are financed from sales taxes, property taxes, and other general revenues. Activities financed by the General Fund include those of line and staff departments within the City, except for activities of the enterprise funds.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 1: Summary of significant accounting policies (continued)**

**C. Measurement focus, basis of accounting, and financial statement presentation (continued)**

- The *Open Space & Parks Fund* is a special revenue fund and accounts for a temporary sales and use tax of three-eighths percent (3/8%) to be in effect for ten years, beginning January 1, 1994. The voters extended this tax in 2002 for another ten years beginning January 1, 2004 and extended the tax again in 2012 for another ten years beginning January 1, 2014 and ending on December 31, 2023. Revenues from the three-eighths percent are used exclusively for the acquisition and maintenance of land in and around Louisville for open space buffer zones, trails, wildlife habitats, wetlands preservation, and parks.
- The *Recreation Fund* is a special revenue fund and accounts for a permanent sales and use tax of 0.15%. These tax proceeds, along with other program revenue, are to be used exclusively for the maintenance and operation of the Recreation & Senior Center and the Memory Square Pool facility.
- The *Urban Revitalization District Fund* is a special revenue fund and accounts for incremental property tax revenue generated within the District. This revenue is used in a variety of ways to alleviate blight within the boundaries of the District.
- The *Capital Projects Fund* was created in 1985 to account for the service expansion fee and the major thoroughfare fee. These fees were collected through the building permit process and were restricted for construction or renovation of parks and building facilities; improvements to streets, alleys, sidewalks, and trails; and for capital equipment. This fund now accounts for the monies received from a one-percent (1%) sales tax, which became effective July 1, 1989. This one-percent sales tax funds various capital improvements and, in the past, has funded debt service on sales tax revenue bonds.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water, wastewater, and storm water utilities, the golf course, the solid waste enterprise funds, and the City's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 1: Summary of significant accounting policies (continued)**

**C. Measurement focus, basis of accounting, and financial statement presentation (continued)**

The City reports the following major proprietary funds:

- The *Consolidated Utility Fund* accounts for the operations and capital needs to provide water, wastewater, and storm water services within the boundaries of the City.
- The *Golf Course Fund* accounts for the operations and capital needs of Coal Creek Golf Course.
- The *Solid Waste & Recycling Fund* accounts for the operations of providing solid waste pickup and single-stream recycling.

Additionally, the City reports the following fund type:

- *Internal Service Funds* account for fleet and technology replacements provided to all departments of the City. The internal activity of the Internal Service Funds has been eliminated from the government-wide financial statements. The services provided and used are not eliminated in the process of consolidation.

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting.

Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources, then unrestricted resources as needed.

**D. Assets, liabilities, and net position/fund balance**

**1. Cash, cash equivalents and investments**

Cash and cash equivalents include cash on hand, amounts in demand deposits, amounts in local government investment pools, and investments with maturity dates within five years from the date acquired. Investments are stated at fair value.

**2. Interfund receivables/payables and advances**

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). Any residual balances outstanding between the governmental activities and

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 1: Summary of significant accounting policies (continued)**

**D. Assets, liabilities, and net position/fund balance (continued)**

**2. Interfund receivables/payables and advances (continued)**

business-type activities are reported in the government-wide financial statements as “internal balances.” Advances from other funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

**3. Inventories**

Inventories are valued at cost, using the first-in/first-out method. The costs of inventories are recorded as an expense or expenditure when consumed rather than when purchased. The inventory balance, as reported in the fund financial statements, is offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

**4. Prepaid items**

Payments made to vendors for services that will benefit periods beyond year-end are recorded as prepaid items. The prepaid balances, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

**5. Restricted assets**

Restricted assets in the Consolidated Utility Fund are amounts on deposit with the Urban Drainage & Flood Control District that are restricted for specific capital projects. Restricted assets in the Urban Revitalization District Fund are proceeds in escrow from tax increment financing bonds restricted for specific capital projects.

**6. Capital assets**

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, sidewalks, traffic signals, trails, and similar items) purchased or constructed since 1980, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and the proprietary fund types in the fund financial statements. Capital assets are defined by the City as assets with an initial individual cost of \$10,000 or more and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 1: Summary of significant accounting policies (continued)**

**D. Assets, liabilities, and net position/fund balance (continued)**

**6. Capital assets (continued)**

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related assets, as applicable.

Interest is capitalized on proprietary fund assets acquired with tax-exempt debt. The amount of interest to be capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on invested proceeds over the same period.

Property, plant, and equipment of the City are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	50
Building Improvements	30
Streets & Sidewalks	25 – 30
Water, Wastewater, & Storm Water Systems	25 – 50
Vehicles	3 – 7
Machinery & Equipment	5 – 10
Computer Equipment	3 – 10

**7. Compensated absences**

Upon termination, employees are paid for all unused time in their paid leave bank and compensatory time bank. Accumulated paid leave and compensatory time for employees paid out of governmental funds are recorded as a fund liability when due. All unused time is recorded as a liability in the governmental activities column in the Statement of Net Position. As the paid leave and compensatory time benefits accrue to employees of proprietary funds, an expense and liability is recorded in those funds.

**8. Long-term obligations**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

In the fund financial statements, governmental fund types recognize bond discounts and issuance costs in the current period. Bond premiums/discounts for proprietary fund types are capitalized and amortized on a straight-line basis over the term of the bonds using the straight-line method, which approximates the effective interest method. Bond premiums/discounts are presented as an increase in or reduction from the face amount of bonds payable. Bond issuance costs are expensed as incurred.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 1: Summary of significant accounting policies (continued)**

**D. Assets, liabilities, and net position/fund balance (continued)**

**9. Deferred Outflows/Inflows of Resources**

Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The City does not have any items item that qualify for reporting in this category.

Deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two items that qualify for reporting in this category – deferred revenues from two sources: property taxes and miscellaneous other, which includes small amounts of revenue received in 2020 for recognition in 2021, such as sales taxes and animal licenses. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

**10. Fund Balances**

The City reflects fund balances in accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54)*. This Statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires that all fund balance amounts be properly reported within one of the following fund balance categories:

1. *Nonspendable*, such as fund balance associated with inventories, prepaid expenditures, and long-term loans and notes receivable.
2. *Restricted* fund balance category includes amounts that can be spent only for specific purposes as stipulated by external resource providers or by law through constitution provisions or enabling legislation.
3. *Committed* fund balance classification includes amounts that can be used only for the specific purposes as determined by City Council ordinance. An ordinance is required to establish, rescind, or modify a fund balance commitment.
4. *Assigned* fund balance classifications are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. As of December 31, 2020, the City Council has not authorized any official to assign fund balance other than through the execution of purchase orders.
5. *Unassigned* fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. The General Fund is the only fund that can report a positive unassigned fund balance. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the General Fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in those funds.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 1: Summary of significant accounting policies (continued)**

**D. Assets, liabilities, and net position/fund balance (continued)**

**10. Fund Balances (continued)**

The City does not have an accounting policy regarding which resources (restricted, committed, assigned, or unassigned) are considered to be spent first for expenditures for which more than one resource classification is available and by default has determined restricted amounts to be reduced first, followed by committed amounts, then assigned amounts, and then unassigned amounts.

Per Resolution No. 92, Series 2015, and as amended on November 4, 2019, the City established a reserve policy in which the General Fund, Open Space and Parks Fund, the Cemetery Fund, the Recreation Fund, and the Golf Course Fund will each maintain a minimum fund balance of 15% of current operating expenditures. The reserve policy states that the Combined Utility Fund will maintain a minimum working capital balance of 25% of current operating expenses.

In compliance with GASB 54, the City has reported fund balance at December 31, 2020 in the following manner:

*Nonspendable:* The City maintains an inventory of fuel for various vehicles and equipment (\$14,871). The City has prepaid various amounts in 2020 that will be recorded as expenditures in 2021 (\$205,807). The total equity within the Cemetery Perpetual Care Fund, a Permanent Fund, is non-spendable (\$638,840).

*Restricted:* The Taxpayer's Bill of Rights (TABOR) requires a certain level of reserves within the City's General Fund. The City has calculated a required reserve of \$1,275,721 at December 31, 2020. The total equity within the Open Space & Parks Fund (\$3,229,595), which contains proceeds from a 3/8% sales and use tax, is restricted by voter approval to acquisition and maintenance of open space and parks. The total equity in the Recreation Fund (\$1,369,124), which contains proceeds from a 0.15% sales and use tax, is restricted by voter approval for operations and maintenance of the Recreation & Senior Center and Memory Square Pool facility. The Capital Projects Fund contains the remaining proceeds of a contribution from the Takoda Metropolitan District (\$57,495) that is restricted by intergovernmental agreement for specific capital improvements. The remaining equity within the Capital Projects Fund (\$6,604,791), which includes proceeds from a 1% sales & use tax, is restricted by voter approval for general capital improvements. The total equity within the Urban Revitalization District Fund (\$2,238,612) is restricted to improvements within the district or services related to district operations. The total equity in the Historic Preservation Fund (\$2,864,176), which contains proceeds from a 1/8% sales and use tax, is restricted by voter approval for historic preservation purposes. The total equity in the Recreation Center Debt Service Fund (\$204,031) is restricted by voter approval for debt service on the 2017 General Obligation

**City of Louisville**  
**Notes to the Financial Statements**

**Note 1: Summary of significant accounting policies (continued)**

**D. Assets, liabilities, and net position/fund balance (continued)**

**10. Fund Balances (continued)**

Recreation Center Bonds.

*Committed:* The total remaining equity in the Recreation Center Construction Fund (\$213,046) has been committed by Council action for Recreation & Senior Center capital improvements. The total equity within the PEG Fees Fund (\$11,347), which contains proceeds from a 50-cent per account, per month cable television fee, is committed by Council action to capital outlay for public access television. The total equity in the Parking Improvement Fund (\$93,813), which contains developer payments in lieu of parking, is committed by Council action to public parking improvements. The total equity within the Impact Fee Fund (\$195,704), which contains proceeds from developer impact fees, is committed by Council action for specific growth-related capital projects. The total equity within the Cemetery Fund (\$29,513) is committed by Council action to cemetery maintenance and improvements.

*Assigned:* The total amount of encumbrances within the General Fund at December 31, 2020 was \$132,114. This was the result of numerous outstanding purchase orders for various operational items.

**11. Contraband forfeitures**

In accordance with the Colorado Contraband Forfeiture Act (CRS-16-13-501 to 511) forfeitures from the seizure of contraband are used for the specific purpose of law enforcement activities. These funds are included in the City's General Fund.

**12. Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that could affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**13. Comparative Data**

Certain comparative total data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of changes in the City's financial position and operations. However, complete comparative data in accordance with generally accepted accounting principles has not been presented since its inclusion would make the financial statements unduly complex and difficult to read.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 2: Stewardship, compliance, and accountability**

**A. Budgetary information**

Budgets for the governmental funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgets for the proprietary funds are adopted on a basis consistent with GAAP, except that the budgeted expenditures also include capital outlay and bond principal payments and exclude depreciation. Council legally adopts all governmental and proprietary fund budgets. The level on which expenditures may not exceed appropriations is the legally adopted annual operating budget for each fund. All annual appropriations lapse at year end. The City Council may amend the budget by resolution. The City requires all governmental and all proprietary funds adopt an annual budget.

On or before the first day of September, each department director submits to the City Manager the department's proposed budget for the next fiscal year. On or before the third Tuesday in October, the City Manager submits to the Council the proposed budget for the next fiscal year. Within fourteen days after receiving the proposed budget from the City Manager, City Council sets the date and time for at least one public hearing on the proposed budget. On or before December 15, the City Council adopts the budget by resolution.

Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrance accounting – under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation – is utilized in all funds. Encumbrances outstanding at year-end are continued into the subsequent year. Encumbrances at year-end do not constitute expenditures or liabilities because the commitments will be re-appropriated during the subsequent year.

**B. Excess of expenditures over appropriations**

For the year ended December 31, 2020, total expenditures (including interfund transfers out) exceeded appropriations in the Parking Improvement Fund by \$45, in the Conservation Trust – Lottery Fund by \$597, in the Recreation Center Debt Service Fund by \$63, in the Solid Waste & Recycling Fund by \$122,922, in the Technology Management Fund by \$28,932, and in the Fleet Management Fund by \$37,448. This may be a violation of Colorado State Statutes.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 3: Deposits and investments**

**A. Cash and deposits**

As of December 31, 2019 the summary of the carrying values of deposits and investments is as follows:

Petty Cash	\$ 3,950
Deposits	1,797,488
Investments (at fair value)	<u>57,023,953</u>
	<u><u>\$58,825,391</u></u>

Deposits include \$1,369,137 of restricted cash, which includes \$1,057,359 on deposit with the Urban Drainage & Flood Control District and \$311,778 of unspent bond proceeds from the Urban Revitalization District.

The Colorado Public Deposit Protection Act (“PDPA”) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by State regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the aggregate uninsured deposits. The City has \$500,000 of FDIC-insured deposits and \$2,185,101 of collateralized deposits under PDPA as of December 31, 2020.

**B. Investments**

The types of investments which are authorized to be made with City funds are controlled by State statutes and the investment policies of the City. Colorado statutes and the City’s investment policies specify investments instruments meeting defined risk criteria ratings in which the City may invest:

- a. Any security issued by, fully guaranteed by, or for which the full credit of the United States Treasury is pledged for payment.
- b. Any security issued by, fully guaranteed by, or for which the full credit of the following is pledged for payment: The Federal Farm Credit Bank, a Federal Home Loan Bank, the Federal Home Loan Mortgage Corporation, and the Federal National Mortgage Association.
- c. Any security that is a general obligation of any state of the United States.
- d. Any interest in a local government investment pool.
- e. Any corporate bank security issued by a corporation or bank that is organized and operated within the United States.
- f. Any money market fund that is registered as an investment company under the federal “Investment Company Act of 1940”.
- g. The purchase of any repurchase agreement of marketable securities.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 3: Deposits and investments (continued)**

**B. Investments (continued)**

At December 31, 2020, the City's investments are categorized as follows:

Account Description	Ratings	Maturity		Total
		< 1 Year	1-5 Years	
LGIP - CSAFE	AAAm S&P	\$ 2,971,723	\$ -	\$ 2,971,723
LGIP - COLOTRUST	AAAm S&P	9,175,565	-	9,175,565
U.S. Gov't Securities	AA+/stable S&P	22,562,687	18,026,871	40,589,558
Corporate Securities	A1+ S&P	3,766,478	520,630	4,287,108
<b>Total Investments</b>		<b>\$ 38,476,452</b>	<b>\$ 18,547,501</b>	<b>\$ 57,023,953</b>

*Local Government Investment Pools (LGIP's)* – At December 31, 2020, the City had \$2,971,723 invested in the Colorado Surplus Asset Fund Trust (CSAFE) and \$9,175,565 invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST), both local government investment pools. The pools operate under the Colorado Revised Statutes (24-75-701) and are overseen by the Colorado Securities Commissioner. The pools invest in securities that are specified by the Colorado Revised Statutes (24-75-601). ColoTrust has a daily redemption frequency period and a one-day redemption notice period. CSAFE is valued at amortized cost and ColoTrust is valued at NAV. Authorized securities include U.S. Treasuries, U.S. Agencies, commercial paper rated A1 or better, and bank deposits (collateralized through PDPA). The pools operate similar to a 2a-7-like money market fund with a share value equal to \$1.00 and a maximum weighted average maturity of 60 days. The pools are rated AAAm by the Standards & Poor's Corporation. A custodial bank provides banking services and trust custody for securities held on behalf of the participating governments in the pools. The custodian's internal records identify the investments owned by the participating governments.

*Interest Rate Risk* – In accordance with the City's Investment Policy and State statutes, the City manages its exposure to declines in fair value losses arising from increased interest rates by limiting the maturity date of investment securities to five years from the date of purchase.

*Credit Risk* – The City's Investment Policy and Colorado statutes limit investments in money market funds to those that maintain a constant share price, with a maximum remaining maturity in accordance with Rule 2a-7, and either have assets of one billion dollars or the highest rating issued by a NRSRO. State statutes limit investments in U.S. Agency securities to the highest rating issued by at least two NRSROs.

*Concentration of Credit Risk* – The City's Investment Policy and State statutes do not limit the amount the City may invest in one issuer. At December 31, 2020, (excluding LGIP's) the City's investments in Federal Farm Credit Bank securities represented 30% of total investments, US Treasury securities represented 28% of total investments, Federal Home Loan Bank securities represented 22% of total investments, short-term corporate securities represented 10% of total investments,

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 3: Deposits and investments (continued)**

**B. Investments (continued)**

Freddie Mac securities represented 8% of total investments, and Fannie Mae securities represented 2% of total investments.

The City categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of assets. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs in markets that are not active; Level 3 inputs are significant unobservable inputs. The City uses the market approach when valuing Level 2 investments by using information generated by market transactions involving identical or similar assets.

<u>Investments</u>	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
U.S. Gov't Securities	\$ 40,589,558	\$40,589,558	\$ -	\$ -
Corporate Securities	4,287,108	-	4,287,108	-
Total USGS & CP	44,876,665	\$40,589,558	\$ 4,287,108	\$ -
LGIP - CSAFE (at cost)	2,971,723			
LGIP - COLOTRUST (at NAV)	9,175,565			
<b>Total</b>	<b>\$ 57,023,953</b>			

**Note 4: Receivables**

**A. Property taxes**

Property taxes are attached as an enforceable lien on property as of January 1. Taxes are certified by December 31, levied on January 1, and paid in either one installment on April 30, or two installments on February 28 and June 15. Boulder County bills and collects the City's property taxes. Property taxes are recognized as receivables and deferred revenues when a lien is placed on the property, and as revenue when due for collection in the following year.

**B. Allowance for doubtful accounts**

Due to the City's ability to successfully collect on accounts, there was no allowance for doubtful accounts in the Consolidated Utility Fund, the Solid Waste & Recycling Fund, and the Golf Course Fund at December 31, 2020.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 5: Inter-fund receivables/payables, advances, and transfers**

The advances to/from funds represent inter-fund loans. Section 13-3(b) of the City of Louisville Charter states that any loan of money derived from a City-owned utility to any other City-owned utility, or to any other City fund, shall be approved by ordinance, the motion approving the loan shall specify the term of the loan and the interest rate, and the interest rate shall be adjusted annually to a rate equal to the average return of City investments for the preceding twelve (12) months. As of December 31, 2020, there are no short-term interfund loans.

The permanent movement of resources from one fund to another represent inter-fund transfers. The inter-fund transfers occurring in 2020 are summarized in the following table.

Transfers Out	Transfers In					Total
	General Fund	Open Space & Parks Fund	Cemetery Fund	Recreation Fund	Capital Projects Fund	
General Fund	\$ -	\$ 844,770 <sup>a</sup>	\$ 128,300 <sup>b</sup>	\$ 1,525,120 <sup>c</sup>	\$ -	\$ 2,498,190
Cemetery Perpetual Care Fund	-	-	9,310 <sup>d</sup>	-	-	9,310
PEG Fee Fund	25,000 <sup>e</sup>	-	-	-	-	25,000
Historic Preservation	55,840 <sup>f</sup>	-	-	-	-	55,840
Capital Projects Fund	-	-	-	127,440 <sup>g</sup>	-	127,440
Impact Fee Fund	-	272,696 <sup>h</sup>	-	-	331,939 <sup>h</sup>	604,635
<b>Total</b>	<b>\$ 80,840</b>	<b>\$ 1,117,466</b>	<b>\$ 137,610</b>	<b>\$ 1,652,560</b>	<b>\$ 331,939</b>	<b>\$ 3,320,415</b>

<sup>a</sup> Annual subsidy transfer.

<sup>b</sup> Annual subsidy transfer.

<sup>c</sup> Annual subsidy transfer.

<sup>d</sup> Transfer of interest earned in the Cemetery Perpetual Care Fund to fund general cemetery maintenance.

<sup>e</sup> Repayment transfer for previous assistance funding the Broadcast Upgrade Project.

<sup>f</sup> Annual transfer to fund Visitor Services Rep and Volunteer Coordinator position and Education/Outreach Coordinator position.

<sup>g</sup> Annual subsidy transfer for capital projects.

<sup>h</sup> Transfer of impact fee revenue to fund costs eligible for impact fee revenue funding.

The General Fund makes annual transfers to the Open Space & Parks Fund to help cover open space and parks operations and maintain an adequate fund balance in compliance with the City's Financial Policies.

The General Fund and the Cemetery Perpetual Care Fund make annual transfers to the Cemetery Fund to help cover the cost of Cemetery operations. The annual transfer from the Cemetery Perpetual Care Fund is equal to the interest earned in the Cemetery Perpetual Care Fund.

The General Fund makes annual transfers to the Recreation Fund to help cover the Recreation & Senior Center facility operations and maintain an adequate fund balance and renewal/replacement reserve in compliance with the City's Financial Policies.

The PEG Fee Fund made a transfer to the General Fund as part of a "repayment" for previous assistance in funding the 2018 Broadcast Upgrade Project.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 5: Inter-fund receivables/payables, advances, and transfers (continued)**

The Historic Preservation Fund makes annual transfers to the General Fund to cover the cost of a Visitor Services Representative & Volunteer Coordinator position and an Education Outreach Coordinator position.

The Capital Projects Fund makes an annual transfer to the Recreation Fund to help cover the cost of capital projects.

The Impact Fee Fund makes an annual transfer to the Open Space & Parks Fund and the Capital Projects Fund to expend impact fee revenue for transportation and park projects that are deemed eligible for impact fee funding.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 7: Long-term debt (continued)**

**A. Changes in long-term liabilities (continued)**

Compensated absences in both governmental and business-type activities are classified as long-term liabilities. The City estimates that the current portion of compensated absences is \$146,790 in the governmental funds and \$35,596 in the business type activity funds for a total of \$182,386. Compensated absences of the governmental activities are expected to be paid from the General Fund, Open Space & Parks Fund, Cemetery Fund, Historic Preservation Fund, Recreation Fund, and the Capital Projects Fund.

**B. Bonds payable – government activities**

In 2014, the Urban Revitalization District (Louisville Revitalization Commission) received authorization to issue \$4.5 million of tax increment financing bonds for the DELO Project. The District issued \$750,000 of 7% tax increment financing bonds in 2014 and the remaining authorization of \$3,750,000 was issued in 2016. These are cash flow, accretion bonds. Payment on the bonds commences when the property tax increment generated by the DELO Project is sufficient to support payment. Full payment on the bonds is projected to occur prior to 2031. The District is a blended component unit of the City. The debt does not constitute a direct obligation of the City.

On November 15, 2016, City of Louisville voters approved the issuance of up to \$28.6 million of general obligation bonds for the purpose of funding improvements to the Recreation/Senior Center and the Memory Square Pool facilities. Voters approved a mill levy of up to 3.35 mills to pay debt service on the bonds and approved a new sales tax of 0.15% to pay for operating and maintenance costs of the Recreation & Senior Center and the Memory Square Pool facility. In compliance with this voter authorization, on May 23, 2017, the City of Louisville issued \$27,215,000 of Limited Tax General Obligation Bonds, Series 2017. The bond coupons range from 2.0%-4.0%, which resulted in an issuance premium of \$1,846,241. The bonds mature annually beginning on December 1, 2018 through December 2042. Remaining debt service at December 31, 2020 was \$38,311,200.

**C. Bonds payable - enterprise funds**

On September 13, 2013, the 2003 Series Colorado Water Resources and Power Development Authority loan was refinanced and completely paid on December 1, 2013 with the issuance of \$8,355,000 of 2013 Water & Wastewater Enterprise Revenue Refunding Bonds. The interest rate on the refunding bonds is 2.47%. Net available revenue of \$7,978,357 was available to pay 2020 debt service on the bonds of \$886,270. The remaining debt service on the refunding bonds at December 31, 2020 was \$3,522,357.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 7: Long-term debt (continued)**

**C. Bonds payable - enterprise funds (continued)**

On May 28, 2015, the City executed a loan agreement with the Colorado Water Resources and Power Development Authority (CWRPDA). Under this agreement, the CWRPDA loaned the City \$31,641,348 at a federally subsidized yield of 2.18%. Proceeds from the loan were used to finance the Wastewater Treatment Plant Upgrade project and the City-Wide Storm Sewer Outfall Improvements project. Repayment of the loan will be made over 20 years with final payment in 2035. The source of payments will come from the water, wastewater, and storm sewer utility revenue. Net available revenue of \$7,092,087 was available to pay 2020 debt service on the bonds of \$1,548,419. The remaining debt service on the refunding bonds at December 31, 2020 was \$32,842,163.

**D. Capital leases payable**

In July 2015 and in August 2016, the City entered into lease purchase financing agreements with Alpine Bank to purchase portions of a community solar panel array from Clean Energy Collective (CEC). The interest rates on the leases range from 3.5% to 4.75%. Total solar panels acquired under the lease amount to \$1,205,000. Accumulated depreciation on the assets through December 31, 2020 equals \$281,562. Under the agreements, the City receives electric utility billing credits and Renewable Energy Certificate (REC) payments during the length of the lease. The credits and REC payments are expected to exceed the amount of the lease payments by approximately \$1.5 million over 20 years. In 2019, the July 2015 lease was converted from a taxable lease to a non-taxable lease, reducing the interest rate from 4.75% to 3.5%, saving approximately \$22,200 in total debt service during the remaining term of the lease.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 7: Long-term debt (continued)**

**E. Debt requirements to maturity**

The annual debt service requirements for all bonds, notes, and capital leases outstanding as of December 31, 2020, are summarized in the following table:

**Note 8: Retirement commitments – employee pension plan**

The City provides a qualified defined contribution pension plan, administered by the ICMA Retirement Trust, for all regular full-time and regular part-time employees. During the 2020 fiscal year, there were 194 plan members. This plan is provided through the ICMA Retirement Corporation Prototype 401(a) Money Purchase Plan and Trust. This plan does not meet the standards of generally accepted accounting principles for inclusion as part of the reporting entity.

In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees are required to participate from date of employment. For 2020, the City required the employee to contribute 5.0% of earnings with the City matching 5.5% for the plan year. Plan provisions and contribution requirements have been adopted by the City Council. Changes to the plan can be made by the City Manager.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 8: Retirement commitments – employee pension plan (continued)**

Earnings include base pay, overtime, and any applicable bonuses. The City's matching contributions and earnings are vested as follows:

<u>Years of Service Completed</u>	<u>Specified Percent Vested</u>
Less than One	0%
One	50%
Two	100%

All administrative costs of the plan are borne by the participants of the plan. City contributions for, and interest forfeited by, employees who leave employment before partially or fully vested may be used to reduce future City contributions. The 2020 gross contributions were \$719,490 from employees and \$792,447 from the City for a total of \$1,511,937. Total forfeitures during 2020 were \$21,516. Wages paid by the City in 2020 totaled \$15,957,507, with regular full-time and regular benefitted and part-time benefitted employees receiving \$13,961,722.

In addition, employees may participate in an Internal Revenue Code 457 Plan on a voluntary basis. The City only makes contributions to the City Manager's 457 Plan, an amount equal to 10% of base salary.

**Note 9: Risk management**

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. The City carries commercial insurance for the risks of loss, including worker's compensation and property/casualty loss insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. Limits of insurance coverage remain unchanged in the past three years.

**Note 10: Commitments**

**A. Redevelopment Agreement**

In December 2006, the City established the Louisville Revitalization Commission and approved an urban renewal plan for certain blighted areas within the City. In 2008, the Urban Revitalization District began collecting tax increment revenues to finance improvements in the blighted areas. The agreement expires in December 2032.

**B. Construction and other significant commitments**

The City has committed to various future transactions, such as long-term contractual obligations with suppliers for future purchases as specified prices and quantities. The City's use of purchase order encumbrances meet the definition of commitments.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 11: Business Assistance Agreements**

The City has adopted a Business Assistance Program (BAP) to ensure it remains competitive in attracting quality business and development by leveraging the impact of a business opportunity to assist prospects in locating or expanding in the City. The program's criteria applies to primary job recruitment and retention, as well as retail recruitment and retention.

Assistance is generally provided in the form of building permit fee rebates, construction use tax rebates, consumer use tax rebates, and sales/use tax rebates. Most rebates are based upon new dollars generated by the project in the early years of operation. The rebates must be earned by completing the project. Sales/use tax assistance is calculated on the City's total 3.65% sales/use tax rate, less the .0375% Open Space Tax, less the 0.125% Historic Preservation Tax and less the 0.15% Recreation Tax. Based upon the new dollars generated by the project, the City rebates a percentage of those dollars back to the owner or developer (but not both). Assistance is available only upon formal City Council approval and there must be an assistance agreement in place prior to a location decision being made.

Since the program's inception in 2007 and through December 31, 2020, the City has executed 85 BAP agreements. The agreements range from a few thousand dollars over a year to over a million dollars over multiple years. Rebate recipients have included restaurants, retail developers, manufacturing, and high tech businesses. The total amount of rebates actually paid out during 2020 are shown in the following table.

<b>Rebate Category</b>	<b>Rebate Amounts 2020</b>
Sales Tax	\$ 23,427
Construction Use Tax	175,560
Building Permits	88,263
<b>Total</b>	<b>\$287,250</b>

**Note 12: Contingent liabilities**

**Litigation**

Various suits and claims are pending against the City as of December 31, 2020. Although the outcome of such suits and claims cannot be predicted with certainty, the City believes that the final outcome of these matters will not materially affect the financial statements of the City and that adequate insurance coverage exists in most cases to cover any potential settlement.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 13: Tax, spending, and debt limitations**

At the November 3, 1992 general election, Colorado voters approved an amendment to the Colorado Constitution commonly known as the Taxpayer's Bill of Rights (TABOR). TABOR became effective December 31, 1992, and its provisions limit government taxes, spending revenues, and debt without electoral approval. Since this time several ballot issues have been presented to the Louisville citizens that impact the limitation.

**1993** – Open space tax approved.

**1994** – Open space bond issue and the use tax on residential building materials were approved.

**1996** – Authorization was given for the City to receive and expend all sales and use tax revenues, exempting these revenues from the TABOR limitation.

**1997** – A revenue-sharing intergovernmental agreement was approved, exempting these revenues from the TABOR limitations.

**1998** – The City Council, by ordinance, declared the Golf Course Fund an enterprise under the TABOR definition.

**1999** – Authorization to keep and spend the revenues collected and received during 1998 and each subsequent year from fees, state and local grants, developer contributions, intergovernmental revenues and payments in lieu of land dedications.

**2001** – Approval allowing the City to keep the excess property taxes collected in 2000 and exempts all future property taxes from the TABOR limitations.

**2002** – Approval of a new Lodging Excise Tax in the amount of 3% and exempting these revenues from the TABOR limitations.

**2002** – Extension of the open space tax for another ten years beginning on January 1, 2004 and ending on December 31, 2013 and exempting these revenues from the TABOR limitations.

**2003** – Approval of the Library bond issue and the additional mill levy not to exceed 1.581 were approved.

**2005** – A use tax on personal tangible property was placed on the ballot in 2005 and failed.

**2006** – A use tax on personal tangible property was placed on the ballot in 2006 and failed.

**2006** – The City Council, by ordinance, declared the Storm Water Utility Fund an enterprise under the TABOR definition.

**2008** – Approval of a 1/8% sales tax for historic preservation purposes for a period of ten years beginning January 1, 2009.

**2009** – The City Council, by ordinance, declared the Solid Waste & Recycling Utility Fund an enterprise under the TABOR definition.

**2010** – Approval of a 3½% consumer use tax, of which 2% is unrestricted, 1% restricted for capital projects, 3/8% restricted for open space acquisition and maintenance, and 1/8% restricted for historic preservation purposes.

**2012** – Extension of the open space tax for another ten years beginning January 1, 2014 and ending December 31, 2023 and exempting these revenues from TABOR limitations.

**2016** – Approval of the Recreation Center/Memory Square Pool Improvement bond issue and the additional mill levy not to exceed 3.350 were approved. An additional 0.15% sales tax was also approved, effective January 1, 2018, for operating and maintaining the Recreation Center and Memory Square Pool.

**2019** – Authorization was given to the City to retain the excess collection of the recreation tax and retain the 0.15% recreation tax rate.

**City of Louisville**  
**Notes to the Financial Statements**  
**December 31, 2020**

**Note 13: Tax, spending, and debt limitations (continued)**

Under the TABOR Amendment, all taxes (except as previously noted), licenses and permits, charges for services, fines and forfeitures, and miscellaneous revenue (except developer contributions and payments in lieu of land dedications) are part of the limitation calculation. Transfers into the fund and debt service (except the open space bond) are deducted. The remainder may increase by the combination of the local growth rate and the rate of inflation in the Denver/Boulder Area.

TABOR Amendment provisions require that annual property tax revenue changes be restricted to the same growth rate applicable to the City's general spending. In 2001 the voters approved exemption from this provision. The TABOR Amendment also requires the local government to reserve three percent of total expenditures for emergencies in 1995 and years thereafter. (The definition of an "emergency," under TABOR is restricted to natural events, but excludes "economic conditions, revenue shortfalls, or district salary or fringe benefit increase.") Accordingly, the City has reviewed the existing reserves and determined that a minimum of 3%, or \$1,275,721 existed at December 31, 2020, to comply with the provisions of the TABOR Amendment.

The TABOR Amendment excludes activities or funds considered to be "enterprises." The classification of an "enterprise" under the TABOR Amendment is based on three criteria: (1) the entity be considered a government-owned business; (2) the entity be authorized to issue its own revenue bonds; (3) the entity receive under 10% of its annual revenue in grants from all Colorado and local governments combined. The Water Utility Fund and Wastewater Utility Fund, as approved by Ordinance No. 1167 and 1168, Series 1994, were declared enterprises under the TABOR Amendment definition. These two funds were combined as one enterprise fund by Ordinance No. 1412, Series 2003. Storm water activities were added to the Water and Wastewater Utility Fund by Ordinance No. 1502, Series 2006. The Golf Course Fund, as approved by Ordinance No. 1280, Series 1998, was given enterprise status in 1998. The Solid Waste & Recycling Fund, as approved by Ordinance No. 1554, Series 2009, was given enterprise status in 2009.

In 2016, voters approved an additional 0.15% sales and use tax, effective January 1, 2018, for operating and maintaining the Recreation Center and Memory Square Pool. Absent later voter approval, TABOR requires a refund of the new tax if either the revenue generated by the tax exceeds the estimate in the TABOR notice or the City's total 2018 fiscal year TABOR "spending" without the tax increase exceeds the amount in the TABOR notice, and requires the tax rate be reduced in future years. In 2018, the sales/use tax collected and the fiscal year spending exceeded the estimated amounts in the TABOR election notice. In November 2019, voters authorized the City to retain the excess collection and the 0.15% rate increase.

**City of Louisville, Colorado**  
**Notes to Required Supplementary Information**  
**December 31, 2020**

**Note 1: Budgets and budgetary accounting**

The City Council follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The City Manager submits a proposed operating budget to the Mayor and the City Council for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures of all funds and the means of financing them.
2. A public hearing is conducted to obtain taxpayer comments.
3. Prior to the end of the fiscal year, the budget is legally adopted through passage of a resolution. An appropriation resolution, based on the adopted budget, is enacted on or before the last day of December.
4. Any revisions that alter the total appropriations of any fund must be approved by the City Council. The City's department directors may approve budget transfers within their departments and the City Manager may approve budget transfers between departments within the same fund.
5. The level on which expenditures may not legally exceed appropriations is the legally adopted annual operating budget for each fund in total. All appropriations lapse at year-end.
6. Budgets for the general, special revenue, debt service, capital projects, and permanent funds are adopted on a basis consistent with Generally Accepted Accounting Principles (GAAP).
7. Budgets for proprietary funds are adopted on a basis consistent with generally accepted accounting principles, except that the City excludes depreciation and amortization and includes debt service principal payments and capital outlay.
8. The City Council may legally amend the budget by resolution once it has been approved. Budgeted amounts, including all amendments, are shown as adopted by the City Council.

COLORADO ▪ SINCE 1878

## **Other Statements and Schedules**

## NON-MAJOR GOVERNMENTAL FUNDS

### Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes

*PEG Fees Fund* – This fund is was created in 2006 in response to Resolution No. 22, Series 2006, that approved an agreement between the City of Louisville and Citizens Community Access Cable Television Management. Originally used to account for PEG grants, effective July 2009, the City’s cable provider began collecting and remitting to the City a \$0.50 per account per month PEG Fee that is split evenly between the City and CCTV for capital outlay.

*Parking Improvement Fund* – This fund was created in 2000 to track the downtown parking improvement fees. This fee is to be used for the purchase or lease of real and personal property for the construction, improvement, or provision of additional on-street and off-street public parking space to serve Downtown Louisville and other improvements associated with downtown parking.

*Conservation Trust – Lottery Fund* – The City of Louisville, through Resolution No. 14, dated July 16, 1974, established a Conservation Trust Fund. The City receives an annual distribution from the State of Colorado from the proceeds of the Colorado State Lottery. State law mandates that a Conservation Trust Fund be established to record revenues and expenditures and that these funds are restricted for the use in the acquisition, development, and maintenance of “new conservation sites” or for capital improvements or maintenance for recreational purposes on any public site.

*Impact Fee Fund* – The Impact Fee Fund was created in 2004 as a result of Ordinance No. 1436 Series 2003. This ordinance was to establish development impact fees for libraries, parks, trails, recreation, municipal facilities and transportation. As a result of the 2006 Impact Fee Study, the fee structures were modified and Impact Fees were categorized as Municipal Facilities, Transportation, Library, Recreation, and Parks & Trails. A review and update to the Impact Fee Study was conducted in 2011, which resulted in a moderate reduction in Impact Fee rates. A review and update to the Impact Fee Study was also conducted in 2016, which resulted in a change in rates and the elimination of all Impact Fees, except for those pertaining to Transportation, Parks & Trails, and Library.

*Cemetery Fund* – The Cemetery Fund was created on November 3, 2008 by Ordinance No. 1542. Unlike the Cemetery Perpetual Care Fund, the revenue in the Cemetery Fund is less restrictive and can be used for both cemetery maintenance and capital improvements. Beginning in 2009, all the interest revenue earned in the Cemetery Perpetual Care Fund is transferred to the Cemetery Fund for maintenance of the lots. In addition, the General Fund subsidizes the Cemetery Fund via annual interfund transfers.

*Historic Preservation Fund* – On November 4, 2008, Louisville voters approved a temporary sales tax increase of 1/8% for ten years, beginning January 1, 2009. Revenue from this increase is restricted for historic preservation purposes within Old Town Louisville. The Historic Preservation Fund was created by Ordinance No. 1544, Series

2008. Resolution No. 20, Series 2009, enacted additional provisions regarding the administration, structure, and uses of the Historic Preservation Fund.

### **Debt Service Fund**

*Recreation Center Debt Service Fund* – In 2016, the Louisville voters approved a \$27,215,000 bond issue for the improvements and expansion of the Recreation/Senior Center and the Memory Square Pool facility. In addition, the voters approved an increase in the City’s property tax levy not to exceed 3.350 mills to pay the debt service on the bonds. The construction began in late 2017 and is accounted for in the Recreation Center Construction Fund, a capital projects fund. The debt service payments are accounted for in the Recreation Center Debt Service Fund.

### **Permanent Fund**

*Cemetery Perpetual Care Fund* – This fund is used to account for principal trust amounts received and related interest income. Beginning in 2009, all the interest revenue earned in the Cemetery Perpetual Care Fund is transferred to the Cemetery Fund for maintenance of the lots.

## ENTERPRISE FUNDS

### Individual Fund Budget Schedules

*Consolidated Utility Fund* – This fund accounts for the provision of water, wastewater, and storm water services to residents and some outside users. All activities that are necessary to provide such services are accounted for in these funds, including, but not limited to: administration, billing operations, environmental monitoring, capital outlay, and maintenance, financing, and related debt.

*Golf Course Fund* – The Golf Course Fund accounts for the activities of the Coal Creek Golf Course, which is owned and operated by the City.

*Solid Waste & Recycling Fund* – This fund was created by Ordinance No. 1554, Series 2009, to account for the resources generated and the costs incurred to provide solid waste pickup and recycling services. Since inception, the City has contracted with a private solid waste disposal company to perform the pickup and recycling services.

## **INTERNAL SERVICE FUNDS**

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost reimbursement basis.

*Technology Management Fund* – In 1999, the City of Louisville established the Technology Management Fund for the purpose of accumulating funds for the replacement of computer hardware and peripherals.

*Fleet Management Fund* – In 1991, the City of Louisville established the Fleet Management Fund for the purpose of accumulating funds for the replacement of capital assets such as large machinery, heavy equipment, and vehicles.

COLORADO • SINCE 1878

## **Statistical Section**

## STATISTICAL SECTION

This part of the City of Louisville’s comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City’s overall financial health.

Contents	Pages
<b>Financial Trends</b>	
These schedules contain trend information to help the reader understand how the City’s financial performance and well-being have changed over time.	
Net Position by Component	104
Change in Net Position	106
Fund Balances of Governmental Funds	110
Changes in Fund Balances of Governmental Funds	112
 <b>Revenue Capacity</b>	
These schedules contain information to help the reader assess the factors affecting the city’s ability to generate its property and sales taxes.	
Tax Revenue by Source – Governmental Funds	114
Assessed Value and Estimated Actual Value of Taxable Property	115
Property Tax Rates and Tax Levies – Direct and Overlapping Governments	116
Principle Property Tax Payers	117
Property Tax Levies and Collections	118
Sales Tax Collections by Category	120
Direct and Overlapping Sales Tax Rates	122
Sales Tax Payers by Industry	123
 <b>Debt Capacity</b>	
These schedules present information to help the reader assess the affordability of the City’s current levels of outstanding debt and the City’s ability to issue additional debt in the future.	
Ratios of Outstanding Debt by Type	124
Computation of Direct and Overlapping Bonded Debt	126
Computation of Legal Debt Margin	128
Pledged Revenue Coverage	130
 <b>Demographics</b>	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City’s financial activities take place and to help make comparisons over time and with other governments.	
Principal Employers	131
Demographic and Economic Statistics	132
Full-Time Employees by Function/Program	133

**Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards***

To the Honorable Mayor, City Council, and City Manager  
City of Louisville, Colorado

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Louisville (the City), as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City’s basic financial statements and have issued our report thereon dated June 11, 2021.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City 's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether The City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Denver, Colorado  
June 11, 2021

**Independent Auditor’s Report on Compliance for the Major Federal Program; Report on Internal Control over Compliance; and Report on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

To the Honorable Mayor, City Council, and City Manager  
City of Louisville, Colorado

**Report on Compliance for the Major Federal Program**

We have audited City of Louisville’s (the City) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the City’s major federal program for the year ended December 31, 2020. The City’s major federal program is identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

**Management’s Responsibility**

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

**Auditor’s Responsibility**

Our responsibility is to express an opinion on the compliance for the City’s major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the City’s compliance.

**Opinion on the Major Federal Program**

In our opinion, the City of Louisville complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2020.

## **Report on Internal Control over Compliance**

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on its major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## **Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Louisville as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated June 11, 2021, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information

directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

*Eide Spilly LLP*

Denver, Colorado

June 11, 2021

City of Louisville  
Schedule of Expenditures of Federal Awards

Total Federal Financial Assistance			<u>\$ 970,318</u>

**Note 1 - Basis of Presentation**

The accompanying schedule of expenditures of federal awards includes the federal award activity of the City of Louisville (the City) under programs of the federal government for the year ended December 31, 2020. The information is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulation (CFR)* Part 200, *Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City.

**Note 2 - Summary of Significant Accounting Policies**

Expenditures reported in the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. No federal financial assistance has been provided to a subrecipient.

**Note 3 - Indirect Cost Rate**

The Organization does not draw for indirect administrative expenses and has not elected to use the 10% de minimus cost rate.
